GANGSTER ALLEY™

Meet LEFTY, SCARE FACE, MUGSY, SHIFTY and the most sinister and deadly of them all — "NITRO ED". They're out to challenge you to the most exciting quick-draw shoot-em out game that has ever appeared on the screen. Your assignment is to meet them on their turf — "GANGSTER ALLEY". You are equipped with bullet proof vests and a gunsight. Your mission is to outdraw them and collect the monetary rewards before they shoot you. They actually appear out of the windows at random to take shots at you and "NITRO ED" sneaks up from the roof top and drops bombs. Periodically, an innocent citizen appears from the window and if you accidentally hit them, you'll lose points. The shoot out switches from day time to night.

PLANET PATROL™

You're an ace fighter pilot patrolling and protecting the galaxy. You are constantly being attacked by evil forces who fire missiles at your craft. As you guide your ship across the colorful terrain you dodge oncoming missiles and you fire back. The object of the game is to destroy as many missiles and the base station before it destroys you. Your assignment takes you from daylight to night missions and in your encounters, you have to rescue downed pilots. Periodically you have to make re-fueling stops. The Graphics are true to life. Planet Patrol is destined to become a universal hit.

tape worm™

HI FOLKS! My name is "SLINKY". I'm a SPECTRAWORM.

You don't know what a SPECTRAWORM is? Well — we are the little critters who clean up the fruit left-over in your television from that other video game that you play! And we do all this for "BEANS" really!

To see me at work, and help me out — just plug me into your game console. By the way, if you see "SPANKY" the spider, or "BEEKY" the bird don't tell them where I am!

China Syndrome™

Your expertise is urgently needed to recover the particles and restore normal power plant operating levels before it's too late! Prevent disaster! Save SPECTRAVILLE! Avoid the start of the "CHINA SYNDROME"
